

# A Million Watt Thank You

*To GE and Orion for “brightening” the lives of the homeless men, women and children served in Clyde’s Kitchen*

*People make it happen!*

## Our Mission

**Empowering people who are homeless to move to economic and personal self sufficiency**

**GE employees, retirees and the GE family of companies — along with their partner company Orion Energy Systems — have shown extraordinary generosity. Together they donated upgraded, energy-efficient lighting for Clyde’s Kitchen at Crossroads — and they raised and donated funds to install the lighting and do a much-needed expansion of the storage area used for staple food and supplies. A total of at least \$20,000. As Clyde’s Kitchen serves 73,000 meals each year for over 3,800 homeless men, women and children — the lives of the Guests we serve will be much brighter. Special thanks to Mark Bellamy, Renee Armstrong and Jim Suci with GE in Atlanta.**
