step to ending homelessness

Empowering people who are homeless to progress on the road toward economic and personal self sufficiency.

Crossroads Community Ministries, Inc. was born over 40 years ago when a St. Luke's Episcopal Church member handed a homeless man a sandwich. From that moment of compassion, St. Luke's began operating a soup kitchen until 1997 when Crossroads was launched as a separate, non-sectarian, non-profit organization.

Today Crossroads is a refuge for people who are currently homeless in Atlanta. Crossroads provides nourishment for its Guests and offers support and services critical in the path to self-sufficiency.
